Jenny,

Thank you very much for the comments on the draft PowerPoint. Your insights will help us develop a much better understanding of what has already taken place in the area around the facility.

Ex. 5 Deliberative Process (DP)

I'll meet with our Geo-PFAS folks today to discuss your helpful comments and to decide when we can get together for this first important planning meeting.

I've attached a draft copy of the Galloway et al. manuscript on HFPO-A and PFOA above. This manuscript is under review at *Environmental Science & Technology*.

Thank you all very much,

Andy

Subject: Comments on the DuPont Slides Are Attached

Hi Andy,

Thank you for making the PowerPoint of DuPont data. Many of the slides are very interesting. However, the team has a few comments that we think will make the slides easier to understand and I attached those comments. The comments can be found as bubbles on the slides and I believe they will appear in the right margin when you are not viewing the slides as a slide show.

Please let us know when you would like to have the internal EPA meeting to discuss the slides. Please invite all of the people on this e-mail.

Finally, please let me know that you received this e-mail with the attachment as the file is about 27 MB and I want to make sure it went through.

Thank you,
Jenny
